Presents:

Nursing & Allied Health Professions' Respiratory Update 2010:

LUNG DISEASES

March 26, 2010
Four Seasons Hotel,
791 Georgia Street,
Vancouver, B.C.

Objectives

This conference presents a comprehensive list of current topics relating to the diagnosis and medical/surgical management of lung diseases, including COPD, lung cancer, pulmonary hypertension and TB. Other topics include BiPAP, lung transplantation and nursing management of H1N1. Use of case study presentations provides for a fun, interactive learning approach to the management of patients with diseases of the respiratory system.
